Contact Elected Officials

Reach out to Congress and request they take the following actions in response to the ongoing violence in Israel and Palestine:

- Acknowledge the loss of lives and recognize the humanity on both sides.
- Express support for an immediate ceasefire.
- Demand the United States reassert its leadership role as a negotiator in pursuit of a lasting peace.

Know Your Rights at Local Protests

Protesting is an important way to exercise your right to free speech and to make your voice heard on issues important to you.

However it can be intimidating, and so we encourage you to familiarize yourself with your rights before you and your loved ones go out to protest with community members.
